

\*Plenum housing removed for clarity.

The Camera Ceiling Lift is a boon to teleconferencers all over the world! This sleek, ultra-quiet lift effortlessly lowers a camera from the ceiling to the desired eye level in just seconds. Gone are the days of clumsy, fixed-mounted cameras that broadcast the subject's torso or over their head. An attractive column lift design ensures that the lift is as elegant as it is functional.

- 28" retracted height
- 31" maximum travel distance
- Programmable show position
- Whisper quiet operation
- Integrated cable management system
